EDUCATION

Meerut Institute of Engineering and Technology (MIET)

2023 – Present

B.Tech in Computer Science and Information Technology — Meerut, UP

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Frameworks & Libraries: MERN Stack (MongoDB, Express, React, Node.js), LangChain, Socket.io

AI/ML: Hugging Face, Gemini API, RAG pipelines, AI Agents

Tools & Platforms: Git, GitHub, UIPATH (RPA), Vercel

Databases: MySQL, MongoDB

Other: REST APIs, JWT Authentication, Responsive Web Design, DSA

PROJECTS

ContractGuard — AI-Powered Contract Analysis System | *Python, FastAPI, LangChain, FAISS* Mar 2026

- Built a full-stack AI system to analyze legal contracts — generates plain-language summaries, detects risky clauses (penalties, liability, non-compete, auto-renewal), and computes a Contract Risk Score (0–100).
- Implemented RAG-based interactive Q&A over uploaded contracts using FAISS vector store, LangChain, and Gemini API for accurate, context-grounded answers.
- Developed contract comparison feature to highlight better/worse terms between two contracts; exposed all features via FastAPI endpoints (/upload, /summary, /risks, /ask, /compare).
- Deployed on Vercel using a GitHub Blueprint with separate FastAPI backend and vercel frontend services; supports PDF and DOCX uploads.
- Live:** contract-guard-cn4j-eydwf6dg0.vercel.app | [GitHub](#)

AgriSense — AI-Powered Agricultural Platform | *MERN, Socket.io, Hugging Face*

Sep – Oct 2025

- Built a full-stack agricultural intelligence platform helping farmers with crop recommendations, plant disease detection, and hyperlocal weather insights using Gemini Flash and Hugging Face APIs.
- Achieved 95% accuracy on plant disease detection; integrated real-time AI chat with multilingual support for Malayalam and English.
- Designed a live dashboard for agricultural officers to monitor farm data; deployed on Vercel with Socket.io for real-time updates.
- Live:** agri-sense-n1mk.vercel.app | [GitHub](#)
